Forward

- A. The Federal Bureau of Investigation's Automatic Declassification Guide provides direction concerning the automatic declassification of national security information. It should be read in conjunction with the FBI's National Security Classification Guide, and other valid FBI classification guides that deal with specialized subjects;
 - 1. Guidance with respect to declassification of national security information 25 years or more after its original classification is provided by this document. This guide is the only valid authority for the FBI's implementation of declassification in accordance with section 3.3(b) of Executive Order 12958, as amended by Executive Order 13292.
 - Guidance with respect to classification of newly-created documents and newly-generated information is provided by valid FBI classification guides.
 - 3. Guidance with respect to the safeguarding, transportation, or destruction of classified national security information is provided by the FBI Security Policy Manuel.
 - 4. Authority for these FBI policies is provided by Executive Order (EO) 12958, as amended by EO 13292, EO 12829, Title 32, Code of Federal Regulations (CFR), Parts 2001-2004, and the Department of Justice Security Policy Operating Manuel.
- B. In cases where this guide does not effectively cover information under analysis, reviewers shall consult original classification authorities, personnel with substantive knowledge in the areas of concern, and/or other authorities.
- C. Interagency Security Classification Appeals Panel (ISCAP) approval will be required if a new category of information must be exempted from automatic declassification.
- D. This Guide is effective immediately, and it supercedes instructions found in the G-3 Classification Guide.
- E. This Guide will be updated at least every 5 years in coordination with ISCAP.
- F. The Addendum hereto will be updated annually to, among other things, account for those file series which are identified in Appendix E thereto.

-NOTE-

- 1. Nothing in this guide prevents officials who hold original classification authority from exercising personal judgment with regard to declassifying information of a type exempted from automatic declassification.
- 2. For any FBI National Security Information which is not identified within this guide but which must be exempted from automatic declassification, FBI will submit a letter of justification to the Interagency Security Classification Appeals Panel (ISCAP) amending the guide. Pending receipt of a response from ISCAP, the documents containing the information in question will remain classified. Any information that is already 25 years old and not covered by this guide will be automatically declassified. However, FBI may exercise reclassification action under section 1.7(c) of EO 12958 as amended by EO 13292 as appropriate. Additionally, any such information will require further review and approval by the ISCAP.

I. Automatic Declassification in General

- A. <u>Automatic Declassification</u>: On December 31, 2006, unless exempted from declassification, all classified information that is more than 25 years old and that has been determined to have permanent historical value under Title 44 will be automatically declassified, whether or not the records have been reviewed.¹
- B. Ongoing Automatic Declassification: After December 31, 2006, unless exempted from automatic declassification, all classified information that is more than 25 years old and that has been determined to have permanent historical value will be automatically declassified or otherwise appropriately delayed on 12/31 of the year that is 25 years from the date of its original classification, whether or not the records have been reviewed.²
- C. Exemptions: Information that is more than 25 years old and that has been determined to have permanent historical value will be exempted from automatic declassification for an additional 25 years from the date that the documents are subject to automatic declassification if it is likely to reveal information regarding one of the nine areas listed in Table 1 below.³
 - 1. <u>Definition of File Series</u>: file units or documents arranged according to a filing system or kept together because they relate to a particular subject or function, result from the same activity, document a specific kind of transaction, take a particular physical form, or have some other relationship arising out of their creation, receipt, or use, such as restrictions on access or use.⁴
 - 2. Exemption Without Review: An agency head shall notify the President through the Assistant to the President for National Security Affairs of any specific file series for which a review or assessment has determined that the information within the file series almost invariably falls within one or more of the nine exemption categories and which the agency proposes to exempt from automatic declassification "without the need for review." Appendix A lists those FBI file series which the FBI director has so designated.

 3. <u>Category Acronyms</u> : Table 1 contains acronyms and descriptions for automatic declassification exemption categories

Exemption of Federal Bureau of investigation File Series from Automatic Declassification were approved January 24, 2007, per memorandum for the Attorney General, from Stephen J. Hadley, The White House, Assistant to the President for National Security affairs.

These codes are unique to this guide and are used here for organizational purposes. Acronyms used in the FBI's "National Security Information Security Classification Guide" are used in section III of this guide and when a particular type of information is either marked for likely exemption or cleared for declassification, the classification guide codes, when they exist, are included in tables throughout this guide to facilitate cross references with the National Security Information Security Classification Guide.

- D. <u>Privacy Act Notices</u>: Privacy Act notices regarding FBI records systems shall be deemed to apply equally to other FBI records systems that merely restate the same information and have not been the subject of separate Privacy Act notices.
- E. <u>Integral File Block</u>: The FBI will not be applying the integral file block concept at the present time.⁸
- F. Automatic Declassification Extensions;
 - 1. 5-Year Delay for Electronic Media: "By notification to the Director of the Information Security Oversight Office (ISOO), before the records are subject to automatic declassification, an agency head or senior agency official ... may delay automatic declassification for up to 5 additional years for classified information contained in microforms, motion pictures, audiotapes, videotapes, or comparable media that make a review for possible declassification exemptions more difficult or costly."
 - 2. 3-Year Grace Period: "By notification to the Director of the ISOO, an agency head or senior agency official ... may delay automatic declassification for up to 3 years from the date of discovery of classified records that were inadvertently not reviewed prior to the effective date of automatic declassification."¹⁰
 - 3. **External Review**: "Records containing information that originated with other agencies or the disclosure of which would affect the interests or activities of other agencies shall be referred for review to those agencies and the information of concern shall be subject to automatic declassification only by those agencies"

 11
 - 4. 3-Year Importation Delay: "By notification to the Director of the ISOO, an agency head or senior agency official ... may delay automatic declassification for up to 3 years for classified records that have been referred or transferred to that agency by another agency less than 3 years before automatic declassification would otherwise be required." 12

SECRET / NOFORN

EO 12958, as amended by EO 13292, Section 6.1(u). "Integral file block" means a distinct component of a file series, as defined in this section, that should be maintained as a separate unit in order to ensure the integrity of the records. An integral file block may consist of a set of records covering either a specific topic or a range of time such as presidential administration or a 5-year retirement schedule within a specific file series that is retired from active use as a group.

⁹ See: EO 13292, Section 3.3(e)(2); and Title 32, CFR, Section 2001.30(m)(1).

See: EO 13292, Section 3.3(e)(4); and Title 32, CFR, Section 2001.30(m)(3).
 See: EO 13292, Section 3.3(h); and Title 32, CFR, Section 2001.30(f).

¹² See: EO 13292, Section 3.3(e)(3); and Title 32, CFR, Section 2001.30(m)(2).

- G. Information Dating from 1960 and Before: Regarding automatic declassification exemptions, it is to be noted that:
 - Absent extenuating circumstances in which it can be demonstrated that information should be exempted because of its
 relevance to current operations and activities, information dating from the end of World War II through 1960 "should be
 treated as presumptively non-classifiable."
 - 2. Absent the approval of the Department Review Committee, information predating World War II "should be declassified through bulk declassification." ¹³

The FBI is bound by these determinations.

H. Appendices

Appendix A identifies file series within the Central Records System. These file series shall be the subject of an appeal to the Assistant to the President for National Security Affairs for exemptions from automatic declassification.

Appendix B identifies (a) file series within the Central Records System, and (b) 1 additional records system concerning which a Privacy Act notice has also been published. The constituents of these file series and this records system will be reviewed to determine whether information therein is exempt from automatic declassification pursuant to all automatic declassification exemption categories.

Appendix C identifies files series within the Central Records System. These file series will not initially be reviewed, and classified material therein will be automatically declassified. This step is being taken, though it is known that classification material will merit continued classification, because necessary reviews of the materials could not be accomplished by December 31, 2006. These materials will be examined for purposes of reclassification on a document by document basis pursuant to Sections 1.5(c) of EO 12958, as amended, and 32 CFR Part 2001.13. Furthermore, when a document is subjected to access demands that occur prior to public release, or prior to accessioning the documents to the National Archives, the provisions of Section 1.7(d) of the amended Order shall apply. When a document has already been declassified and released to the public pursuant to proper authority, the provisions of Section 1.7(c) of the amended Order shall apply.

SECRET//NOFORN

¹³ See: Memorandum from Gerald A. Schroeder to John E. Collingwood, dated 03/31/1998, and titled "FBI Declassification Policies."

Appendix D identifies (a) file series within the Central Records System; (b)16 additional records systems concerning which Privacy Act notices have also been published; and (c) 2 additional records systems concerning which Privacy Act notices have not been published, and which contain information additional to that found in the FBI's Privacy Act records systems. The constituents of these file series and records systems will not be reviewed, thus allowing any classified information therein to be automatically declassified.

Appendix E identifies (a) file series within the Central Records System; and (b) 16 additional records systems concerning which Privacy Act notices have not been published, and which contain information additional to that found in the FBI's Privacy Act records systems. All have national security content, but their oldest documents are younger than 25 years old. Accordingly, they are not now subject to automatic declassification. In outlying years, they will be moved to Appendix A or Appendix B, as necessary, and dealt with accordingly.

Α.	The category code designates files series and information the release of which would "reveal the identity of a
	confidential human source, or a human intelligence source, or reveal information about the application of an intelligence source or
	nethod."
	. All file series identified in Appendix A are likely to contain information subject to this exemption
	"Confidential Human Source" means "any individual [who] has provided information to the United States on matters pertaining to the national security with the expectation that the information or relationship, or both, are to be held in
	confidence." ¹⁴

Information pertaining specifically to identities of "human" sources is included in table contains information regarding intelligence sources other than human (i.e. technological) or particular methods used to gather information.

a. Human source information is classified for an indefinite period and is marked 25X1-human

b. General intelligence sources and methods information shall be subject to declassification review after a period of 25 years and is marked <u>25X1</u>

______ INTERNATIONAL RELATIONS AND DIPLOMATIC ACTIVITIES

- A. "Foreign government information" means:
 - (1) information provided to the United States Government by a foreign government or governments, an international organization of governments, or any element thereof, with the expectation that the information, the source of the information, or both, are to be held in confidence;
 - (2) information produced by the United States Government pursuant to or as a result of a joint arrangement with a foreign government or governments, or an international organization of governments, or any element thereof, requiring that the information, the arrangement, or both, are to be held in confidence; or
 - (3) information received and treated as 'foreign government information' under the terms of a predecessor order Exempted from Automatic Declassification¹⁷
- B. Exchange, cooperation and joint ventures with foreign governments shall be referred to the appropriate entity for consultation to avoid foreign relations harm.
- C. If the foreign government has ceased to exist (e.g.: South Vietnam), or its relationship with the U.S. has changed to the extent that referral is no longer practical (e.g.: Iran), the FBI will be responsible for declassification, subject to referrals to other U.S. Government agencies which may have equities in the information.

Marking Exempted Documents

IV. Declassification Review Markings and Record Keeping

There are two general sets of markings that might be applied to records and information: those that indicate that a particular record is declassified, or conversely, those that indicate that information is not eligible for automatic declassification and the specific exemption that applies.

- A. Material that is declassified shall be marked in the following manner regardless of media: 18
 - 1. The word "Declassified" will be inserted
 - 2. Overall classification markings will be lined through.

SECRET

3. The name or personal identifier of the declassification guide will be inserted

FEDERAL BUREAU OF INVESTIGATION AUTOMATIC DECLASSIFICATION GUIDE

- 4. (U) The date of declassification will be inserted
- C. When records are exempted from automatic declassification the following information shall be maintained:
 - 1. A record of the exemption
 - 2. Filing information that will allow the exempted material to be located in files and databases
 - 3. The next scheduled declassification review.
 - * If at that time the exempted material is not reviewed and exempted again, it will be automatically declassified.

SECRET//NOFORN

15 See: Title 32, CFR, Section 2001.24.

Marking Exempted Documents

- C. Material that has been exempted from automatic declassification will be marked in the following manner: 19
 - 1. The appropriate "25X" classification marking will be inserted in the "Declassify On" line and will be followed immediately by (a) the date on which the information will be declassified or (b) the event which will trigger automatic declassification.²⁰
 - 2. Each "25X" marking corresponds to an exemption category discussed in Section II above.

Reclassification Markings ²¹	Exemption Code ²²	Description
25X1-human		information that would identify or lead to the identification of a confidential human source
25X1		information that would reveal information about the application of an intelligence source or method, including human intelligence, but would not identify or lead to the identification of a confidential human source
25X2		information that would assist in the development or use of weapons of mass destruction
25X3		information that would impair U.S. cryptologic systems or activities
25X4		information that would impair the application of state of the art technology within a U.S. weapon system
25X5		information that would reveal actual U.S. military war plans that remain in effect
25X6		information, including foreign government information that would seriously and demonstrably impair relations between the United States and a foreign government, or seriously and demonstrably undermine ongoing diplomatic activities of the United States
25 X7		information that would clearly and demonstrably impair the current ability to protect the President, Vice President, and other protectees for whom protection services are authorized in the interest of national security
25X8		information that would seriously and demonstrably impair current national security emergency preparedness plans or reveal current vulnerabilities of systems, installations, infrastructures, or projects relating to national security
25X9		information the release of which would violate a statute, treaty or international agreement

- A. File series within the Central Records System and
- B. 16 additional records systems concerning which Privacy Act notices have not been published, and which contain information additional to that found in the FBI's Privacy Act records systems.

All have national security content, but their **oldest documents are younger than 25 years old**. Accordingly, they are not now subject to automatic declassification. In outlying years, they will be **moved to Appendix A or Appendix B**, as necessary, and dealt with accordingly.
